

"Specialty Vehicle" can be defined as any vehicle that exists outside the norm of a standard or "stock" factory production vehicle. That would include any modified, customized, assembled kit, antique or hi-performance vehicle. It would also include any vehicle that has been parked or stored for an extended period. This policy also applies to vehicles that are more than fifteen (15) years old. Although many, if not most, repair shops tend to shy away from such vehicles, we, at Horsepower Farm, take pride in the fact that we employ technicians with the skill and ability to provide service for "Specialty Vehicles" and for our customers that own them.

This commitment does present a variety of unique conditions, not the least of which has to do with the inherent unpredictability associated with repairing this special class of vehicles. As many are either of a vintage where current technology is inapplicable and parts availability unpredictable or are modified in such a way that conventional approaches to repairs aren't effective, accurately estimating the final costs and times of repair becomes virtually impossible. In cases where extended periods of storage and "non-usage" are indicated, encountered difficulty in even the simplest of operations may become exaggerated. Frozen, rusted parts, availability of replacement parts, worn and seized parts all contribute to the inability to predict precise costs and completion times.

With these considerations in mind, we want you to understand at the outset that we require a 50% deposit and WE CANNOT PROMISE TO MEET ANY SPECIFIC BUDGET OR TIMETABLE PREREQUISITES WHEN PERFORMING SERVICE ON YOUR SPECIALTY VEHICLE. We do promise to perform any repairs in a proper manner and will charge only for the necessary time and material required for the appropriate repairs as requested.

The deposit will be placed in your account and every week the completed invoices will be applied against the current credit balance. If there are insufficient funds available in your account to cover the current billing, you will be required to pay the balance due and advance additional funds for us to proceed. (NOTE: We will suspend work until additional funds are received.) If you do not advance additional funds within a reasonable time (10 days), we will interpret that to mean that you don't wish for us to proceed with the project, and/or, if you notify us to stop the project or repair, you will be required to remove your vehicle within 3 days. If the vehicle is not removed, a storage fee of \$75.00 per day will be charged to you commencing on the 4th day.

Please be sure to remove all personal belongings from your vehicle when you leave it with us. Horsepower Farm LLC is not responsible for lost or stolen items.

I, the undersigned, have read and understand the above agreement and approve the conditions as set forth therein:
